Message from the President/CEO

WHY CHILD & FAMILY CENTER

We are excited that you are considering Child & Family Center for your training site. For over 40 years, Child & Family Center has continued to build on what our founders started, providing quality care and services to children and families in need. Child & Family Center is deeply embedded within the community with strong community partnerships with other non-profit agencies providing services to those in need. This gives you the wonderful opportunity to build your clinical skills in a truly community based and collaborative agency with exposure to a full continuum of services and settings.

OUR PROGRAM HIGHLIGHTS

With Child & Family Center, interns work in various departments and programs within the Agency such as Outpatient Mental Health, School-Based Services, Early Childhood Mental Health, Domestic Violence, and Substance Use Disorders. You will gain exposure to the varied roles that clinicians play in community mental health agencies.

LOOKING AHEAD WITH YOU

Child & Family Center is a vibrant and growing community based behavioral health organization that offers a full continuum of services to a large and varied population from early childhood all the way to young adulthood and beyond. We value growth, training, initiative and innovation and strive to build a learning culture. We look forward to you being a part of our mission and journey.

Joan Aschoff, PsyD
President/Chief Executive Officer
August 31, 2018

About the Agency

Child & Family Center (“C&FC” or “Agency”) is dedicated to helping children, families, and adults to thrive and reach their full potential. Established in 1976 as St. Stephen's Special School, the Agency's founders saw a need to assist children with emotional, learning, and behavioral problems. Helping parents and caregivers learn better ways to parent children was a priority. Evolving into the Santa Clarita Valley Special Children's Center in 1985, counseling services were added for teenagers and their parents. Now known as the Child & Family Center, the Agency has grown into a provider of comprehensive prevention, early intervention, diagnostic evaluation, and therapeutic services for children, teens, adults, and families who live in the Santa Clarita Valley and surrounding areas in Los Angeles County.

Child & Family Center helps thousands of children, their families, and the community by providing comprehensive prevention, early intervention, diagnostic evaluation and therapeutic services for children, teens, adults and families. Programs include

Individual, family and group counseling

- Substance use prevention, education, and treatment
- School-Based counseling
- Crisis intervention
- Intensive in-home care
- Domestic violence services

The staff of professionals includes child psychiatrists, licensed psychologists, licensed clinical social workers, marriage family and child therapists, case managers, and therapists who work in collaboration to provide the best possible care. The Agency collaborates with school districts, social service agencies, Los Angeles County Department of Mental Health, Los Angeles County Department of Children & Family Services, Los Angeles County Department of Substance Abuse Prevention and Control, among others to provide the best possible care for clients. The basic philosophy underlying all the Agency's programs is that early intervention and guidance in an individual's life can prevent more serious problems from developing.

The Training Setting

Child & Family Center is a 501 (c)(3) nonprofit public-benefit corporation and provides community-based mental health, substance use, and domestic violence services. Its headquarters are in Santa Clarita, California in the County of Los Angeles. It also operates outpatient clinics in Newhall and Palmdale, California and a confidential domestic violence shelter in the Santa Clarita Valley. It is Medi-Cal and Drug Medi-Cal certified in the state of California, Medicare-eligible provider through the Centers for Medicare & Medicaid Services, and has other various third-party funding arrangements (e.g., grants, TRICARE).

Dedicated to meeting the behavioral health needs of children, adolescents, adults, and their families, a range of services are provided such as counseling, intervention services, and parent education. Professional training is offered to all staff, members of the community, and mental health interns and trainees. The Agency's mission is to change lives and heal relationships by helping people thrive through education, treatment, prevention and advocacy, with the goal to strengthen families today for stronger communities tomorrow. The Agency is committed to evidence-based practices, client outcomes, staff training and development, linguistic/cultural competency, and continuous quality improvement.

The Training Program

At the Child & Family Center, our Training Program is committed to the development of passionate and skilled clinicians through clinical, team-oriented, real-world experience. The goal of the psychology practicum program is to prepare students for the professional practice of psychology within a community mental health setting. Exposure to varied clinical experiences, structured training, and supervision support the development of the foundational and functional competencies in clinical psychology and prepare students as they increase their clinical knowledge and application.

TRAINING OPPORTUNITIES

A variety of formal structured training sessions are provided for practicum students, including an initial orientation where trainings related to the Agency and the training program's policies and procedures are reviewed. Practicum students receive training on the Agency's electronic health record system and clinical documentation required by third party payers. Student/interns also participate in monthly didactic seminars with MSW interns and MFT practicum students.

DIRECT SERVICE ACTIVITIES

Psychology practicum students provide individual, collateral, family, and group therapy, and have opportunities to provide some case management. Psychology practicum students will learn skills essential for employment including trauma-informed treatments and will gain exposure to Evidence-Based Practice models such as Managing and Adapting Practices (MAP), Motivational Interviewing, and Seeking Safety. Efforts are made to ensure that trainees receive a varied caseload in terms of age, gender, culture and diagnoses.

SUPERVISION

Each psychology practicum student is assigned a primary supervisor who is a licensed clinical psychologist. The practicum student receives one hour of individual supervision from their primary supervisor and participates in two hours of group supervision each week. Additional supervision is provided as necessary to support each student/interns clinical caseload.

Training Year Logistics

C&FC accepts students for practicum placement in each Fall. The training year begins during the first week of September and concludes the last week of June. Student/interns are allotted two weeks (40 hours) leave time plus Agency holidays during the training year. The Agency is closed the week between Christmas Eve and New Year's Day. The first two weeks are orientation that include administrative and clinical training. All students are required to attend all orientation days.

MANDATORY DAYS/TIMES

- The Psychology practicum requires a minimum of 20 hours on site per week.
- Wednesdays are mandatory for training and group supervision.
- Psychology Practicum are expected to be onsite three-days per week with at least two evenings until 8:00 p.m.

STIPEND

The stipend is determined on a year-to-year basis based on the budgetary allocation of the Agency.

Application and Selection Requirements

Psychology practicum applicants must be enrolled in a Psychology graduate program that is a member of the Southern California Association of Psychology Training Programs (SCAPTP). Psychology practicum students may apply to Child & Family Center once approved by their graduate school to do so.

Application Materials Must Include:

1. A cover letter stating your area of interest, language ability and experience in community mental health
2. A copy of the applicant's curriculum vitae
3. Two letters of recommendation.
